SUBMISSION OF PAPERS

Researchers should submit a full paper describing their work, maximum of 8 single-spaced one column pages that also include illustrations. Papers are to be numbered starting from page one. The first page should include the paper title, a brief abstract, a set of keywords, and text. Be sure not to include the authors' names in your paper. The abstract should be concise and not longer than 250 words. Immediately following the abstract, no more than six keywords are to be supplied for subject indexing. Keywords should not simply be taken from the title of the paper, but should be representative of the content of the whole paper and characteristic of the terminology used within the particular field of study. The introduction of the paper must be clearly written and should explain the nature of the problem, previous work, purpose and the contribution of the paper. The introduction is assigned number “1”, and following sections are assigned numbers as needed. A conclusion section must be included and should indicate clearly the advantages, limitations, possible applications, and future work. The references section is not assigned a number. References should be numbered in alphabetical order by

the first author's last name. Citations in the text should be by number and enclosed in square brackets, e.g. [1]. Electronic submission of papers as Microsoft's Word document or PDF via IACeT OpenConf is a must.

IACeT OpenConf is a conference management system that automates the paper submission and the whole reviewing process. It can be accessed via IACeT web site at www.iace-t.org. Any question regarding submission or the reviewing process should be directed to info@iace-t.org. A final preparation format is available in the conference web site. Before final acceptance, all referees comments must be considered and the paper must be formatted according to IACeT camera-ready instructions that are provided in the conference web site. Accepted papers for authors who complete registration will be published in the conference proceedings

EVALUATION PROCESS

The evaluation of submitted papers is based on the importance and usefulness of the research topic. Technical merits, novelty of the approach, soundness of results, and clarity of presentation are also considered as factors of the evaluation process. Each article will be fully refereed by a minimum of two specialized referees.
